

Android BoF Intro

Friday, 24 September 2021 07:00 (5 minutes)

Come join and further discuss what was talked about at the earlier Android Microconference session. This provides space to allow folks who couldn't attend due to conflicts as well as for longer discussions that wouldn't fit into the earlier microconference session. We'll have a few topics scheduled, but also leave open some space for folks to propose their own items.

I agree to abide by the anti-harassment policy
