Improving testing of RDMA with syzkaller, RXE and Python

Thursday, 15 November 2018 15:00 (30 minutes)

Problem solve RDMA's distinct lack of public tests.

Provide a better framework for all drivers to test with, and a framework for basic testing in userspace.

Worst remaining unfixed syzkaller bugs and how to try to fix them.

I agree to abide by the anti-harassment policy

Presenters: GUNTORPE, Jason; OSHEROVICH, Noa

Session Classification: RDMA MC
