

# Devicetree track

## Questions and Answers

Plumbers 2018  
Vancouver, Canada

Frank Rowand, Sony

November 14, 2018

181113\_1501

Goal is to have an interactive track, not just slide presentations

# Format

Just 15 minutes for Q&A #1

Just 20 minutes for Q&A #2

- if any session ends quickly, we will start the next session immediately and add the saved time to the next Q&A (and can also add Q&A #3 adjacent to closing session)
- try to be brief when asking question
  - if topic will be covered in a later session and you have no conflict with that session, please let the answer be deferred

# Session notes

Please help take notes on etherpad!

[https://etherpad.openstack.org/p/Device\\_Tree](https://etherpad.openstack.org/p/Device_Tree)

Notes will be available afterwards at:

- linux plumbers conference site???
- [https://elinux.org/Device\\_tree\\_future#Linux\\_Plumbers\\_2018](https://elinux.org/Device_tree_future#Linux_Plumbers_2018)
