Gen-Z on Linux

Tuesday, 13 November 2018 15:00 (30 minutes)

Come chat about getting Gen-Z supported for real in Linux.

Gen-Z (<https://genzconsortium.org/>) is a new system interconnect that blends capabilities of DDR, PCI, USB, Infiniband and Ethernet. Come to this BOF to discuss how best to integrate Gen-Z into Linux.

I agree to abide by the anti-harassment policy

Yes
