What are we doing in coming year?

GNU C Library BoF

LINUX
PLUMBERS
CONFERENCE

August 24-28, 2020

- We will release 2 versions of glibc.
 - glibc 2.33 on February 1st 2021.
 - glibc 2.34 on August 1st 2021.
- How will we achieve this?
 - Patch review!

- Sustainable patch review for 2.32?
 - I ignored all my other work.
 - I setup git-pw and local automation to give “Tested-By:”
 - Always by-hand inspection to give “Signed-off-by:”
 - Answer: Nope.

- Patch review?
 - Weekly
 - Two timezones
 - Use patchwork
 - Make it smooth
 - Involve the community

GNU C Library BoF

LINUX
PLUMBERS
CONFERENCE

August 24-28, 2020

- Patch review?
 - Integrate patchwork into buildbots to get CI?
 - Want to know if patch builds
 - Want to know test suite results with patch

GNU C Library BoF

LINUX
PLUMBERS
CONFERENCE

August 24-28, 2020

- Patch review before bug review?
 - Patches are more valuable.
 - Fix immediate problems.
 - Engage the community.
- Eventually we need bug review.
